

**BRIGHT FUTURES
ARE WRITTEN
BY HAND**

This activity can be used with children aged 4-6 years. It is designed to develop sound pre-writing skills and help with hand-eye coordination. Straight lines are used in the alphabet and tracing them will help your child prepare for writing. Encourage correct use of holding the pencil by asking your child to pinch the pencil using their thumb and pointer finger about 1-2 cm from the tip. Then help your child to rest the pencil on their middle finger.

Lines from Top to Bottom and Left to Right

Trace the dashed lines from top to bottom and then from left to right.
