

BRIGHT FUTURES ARE WRITTEN BY HAND

This activity can be used with children aged 4-6 years. It is designed to develop recognition of numbers 1-5 and fine motor skills. Encourage correct use of holding the pencil by asking your child to pinch the pencil using their thumb and pointer finger about 1-2 cm from the tip. Then help your child to rest the pencil on their middle finger.

Numbers 1, 2, 3, 4 and 5

First, trace the numbers from 1 to 5. Then, draw a line to match the number with its group. The first one is done for you.
