

**BRIGHT FUTURES
ARE WRITTEN
BY HAND**

This activity can be used with children aged 4-6 years. It is designed to develop sound pre-writing skills and fine motor skills. Curved lines are used in the alphabet. Tracing and drawing them will help your child prepare for writing. Encourage correct use of holding the pencil by asking your child to pinch the pencil using their thumb and pointer finger about 1-2 cm from the tip. Then help your child to rest the pencil on their middle finger.

Curves from Top to Bottom and Left to Right

Trace the dashed curves and then draw some more curves to fill the lines.
