

**BRIGHT FUTURES  
ARE WRITTEN  
BY HAND**

This activity can be used with children aged 4-6 years. It is designed to develop sound pre-writing skills and fine motor skills. Circles and ovals are used in the alphabet. Tracing and drawing them will help your child prepare for writing. Encourage correct use of holding the pencil by asking your child to pinch the pencil using their thumb and pointer finger about 1-2 cm from the tip. Then help your child to rest the pencil on their middle finger.

## Circles and Ovals

*Trace the dotted curves and ovals and then draw some of your own.*
